

# Gliding accessories

Assembly instruction for gliding drawer frame, pant rack, shoe rack and neata decor gliding products.

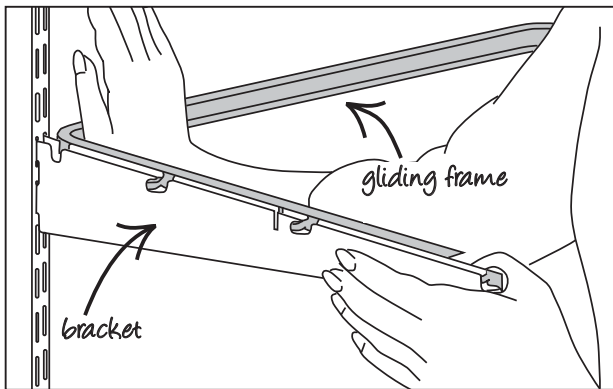

Diagram A

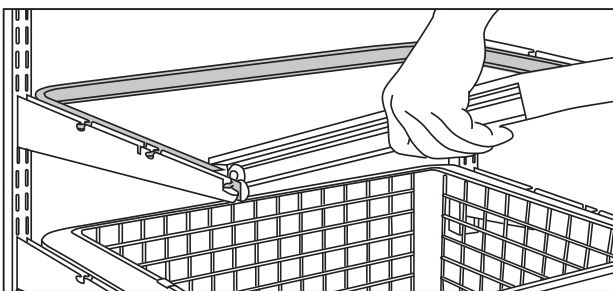

Diagram B

**Note:** All gliding accessories are installed with the same U metal glide.

## Step 1

The side of the gliding frame has 3 metal tabs that lock into the brackets. Align the metal tabs with the notches on the bracket.

## Step 2

When aligned, hold the front of the bracket and press on the back of the U-shaped metal glide until it locks into place. Repeat on the other side. (Diagram A)

## Step 3

Insert your gliding accessory by aligning the rollers on each side of the frame and sliding it into the gliding frame. (Diagram B)

**TIP** If you are installing the gliding accessories side by side, the glide will share the same bracket.
